

Tab 1

Average age for different chestpain types

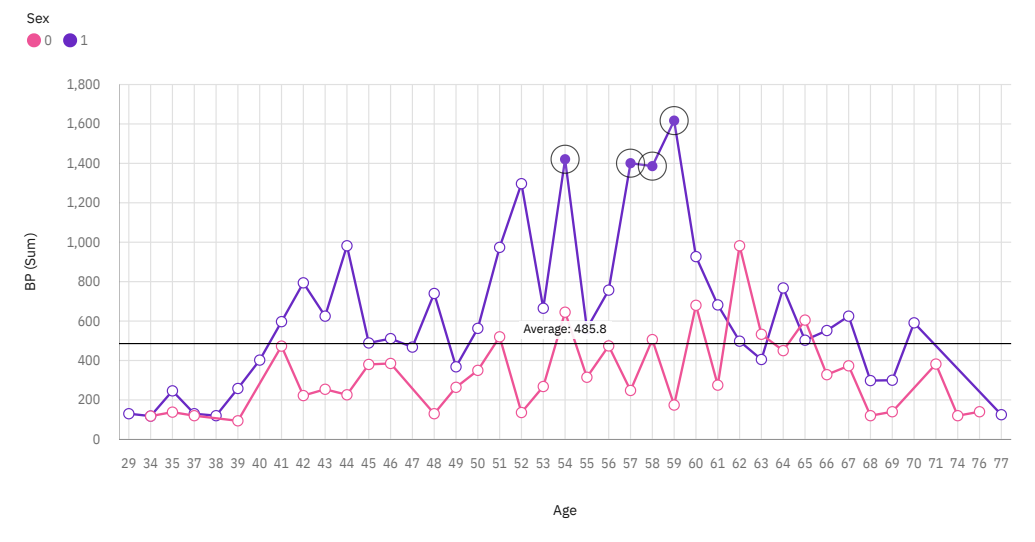

Tab 2

Average Exercise Angina during Chestpain

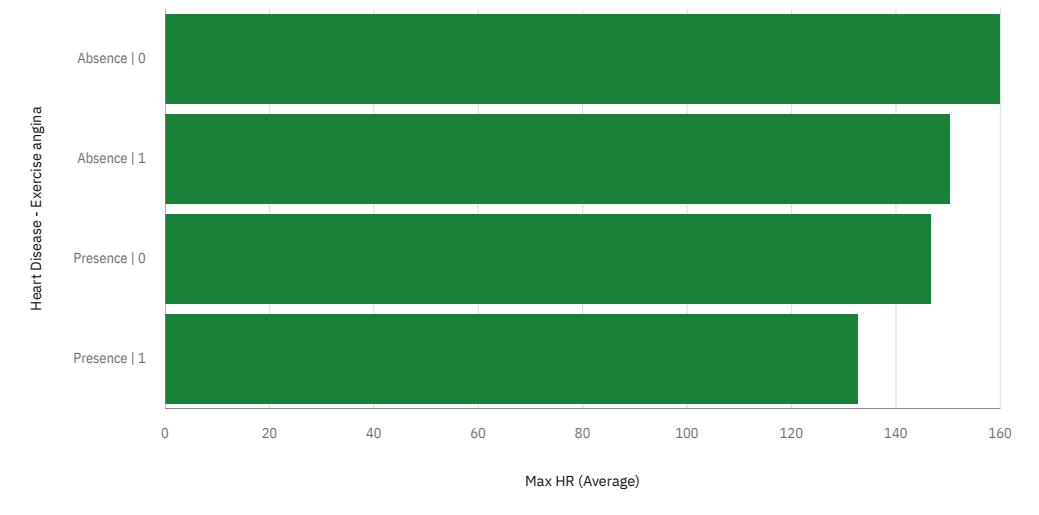

Tab 3

BP Variation With respect to age

Tab 4

Effect of existing heart disease on average of exercise Angina

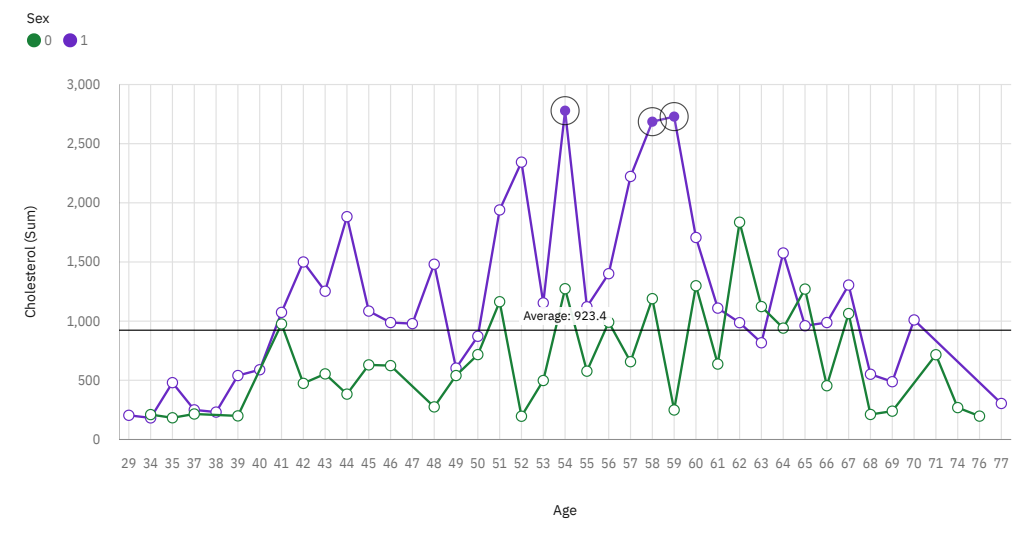

Tab 5

Average Age for different types of Chest pain In Existing heart disease

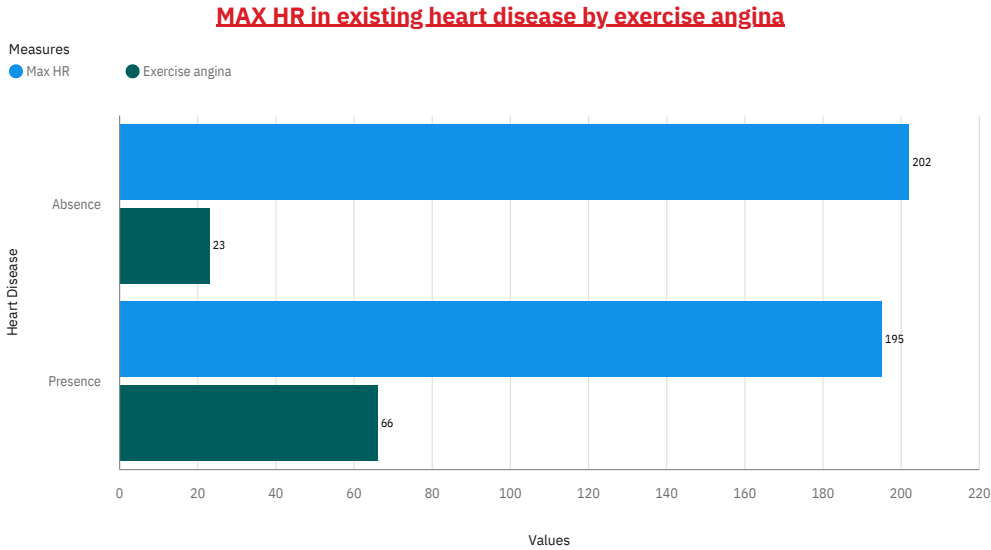

Heart Disease	1	2	3	4	Summary
0	4	16	32	35	87
1	16	26	47	94	183
Summary	20	42	79	129	270

Tab 6

Cholesterol by Age and Gender

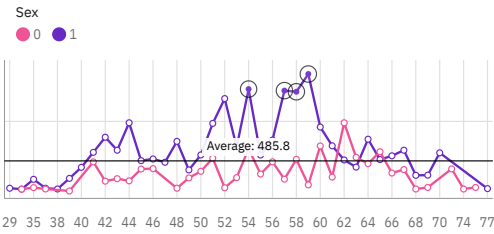

Tab 7

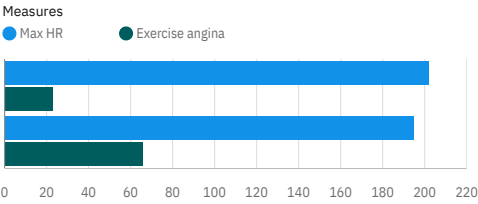

Tab 8

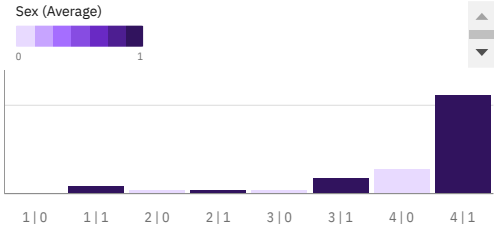

BP Variation With respect to age

MAX HR in existing heart disease by exercise angina

Average Exercise Angina during Chestpain

Cholesterol by Age and Gender
