Project Design Phase-II
Data Flow Diagram & User Stories

Date	26 October 2022
Team ID	PNT2022TMID44038
Project Name	Visualizing And Predicting Heart Diseases With An Interactive Dashboard.

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the rightamount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Data Flow Diagram:
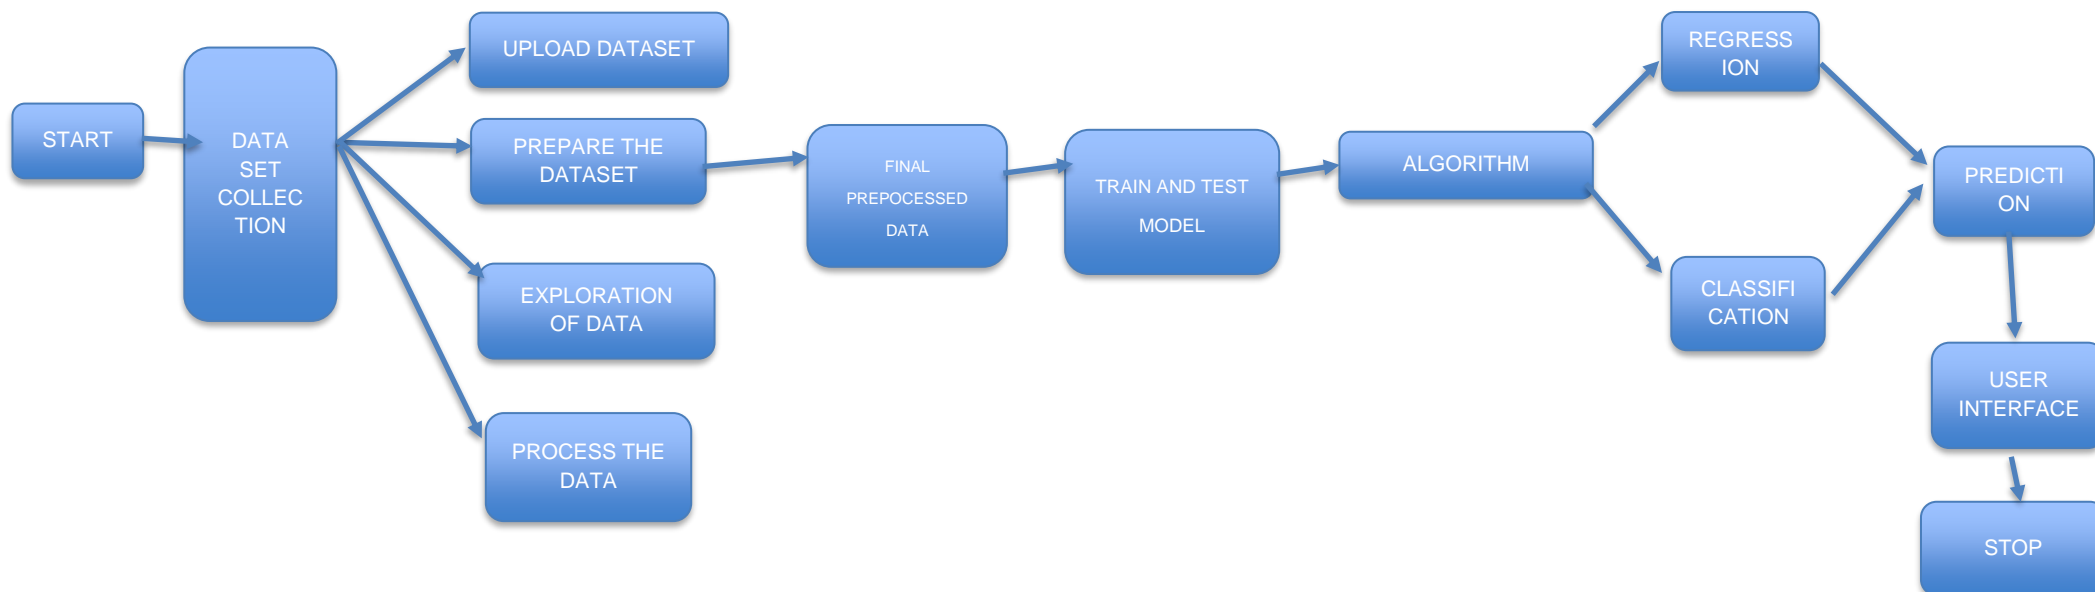

User Stories

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Web user)	Registration	USN-1	As a user, I can register for the web page by entering my email, password, and confirming my password.	I can access my account / dashboard	High	Sprint-1
	Authentication	USN-2	As a user, I will receive confirmation email once I have registered for the application	I can receive confirmation email & click confirm	High	Sprint-1
		USN-3	As a user, I can register for the application through Gmail	I can login using the login credentials	Medium	Sprint-1
	Login	USN-4	As a user, I can log into the application by entering email & password	I can check whether the login credentials are correct	High	Sprint-1
	Dashboard	USN-5	If entering the registered email id, I can access the dashboard	I will be able to view the dashboard of the user	High	Sprint-1

Customer Care Executive	Support	USN-6	If the I faces any issues,then I can report it to their email address	Report and feedback option will be accessible	High	Sprint-2

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
	Accessing dashboard	USN-7	The user uses his/her personal email id to access the dashboard	There is very less chance for other users to access my details	High	Sprint-2
Administrator	Validation	USN-8	The administrator will be able to login with their login ids	He/she will be able to validate the user details	High	Sprint-3
